|----|--|----------|
| 1 | is sand a good thermal mass | Response |
| 2 | are triple glazed windows energy efficient | Response |
| 3 | why are triple glazed windows eco friendly | Response |
| 4 | do triple pane windows reduce heat | Response |
| 5 | do triple pane windows reduce condensation | Response |
| 6 | are all double glazed windows the same | Response |
| 7 | are all double glazed windows argon filled | Response |
| 8 | why are double glazed windows better insulators | Response |
| 9 | how are double glazed windows eco friendly | Response |
| 10 | are skylights good for plants | Response |
| 11 | do skylights heat up a room | Response |
| 12 | is cork board a good insulator | Response |
| 13 | how long does a biomass boiler last | Response |
| 14 | are biomass boilers noisy | Response |
| 15 | are biomass boilers environmentally friendly | Staple |
| 16 | are biomass boilers carbon neutral | Response |
| 17 | are biomass boilers reliable | Response |
| 18 | how can solar heating help the environment | Response |
| 19 | can solar thermal be used for central heating | Response |
| 20 | can solar thermal generate electricity | Response |
| 21 | vertical garden examples | Staple |
| 22 | what is self watering vertical garden | Response |
| 23 | is hydroponic a vertical garden | Response |
| 24 | what is aquaponic urban vertical garden | Response |
| 25 | is recycling better than composting | Staple |
| 26 | is recycling better than landfill | Response |
| 27 | is recycling energy efficient | Response |
| 28 | is recycling glass bad for the environment | Response |
| 29 | is recycling metal good for the environment | Response |
| 30 | is recycling or reusing better for the environment | Response |
